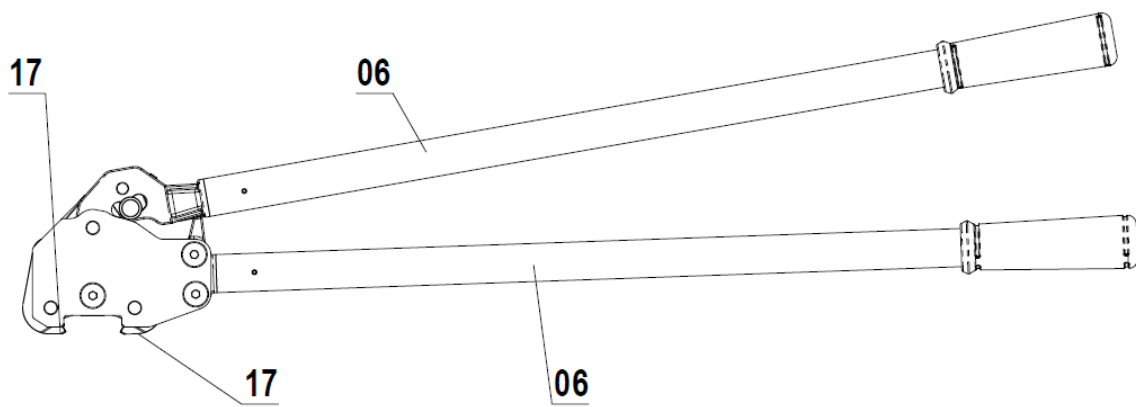

Fig. 1 – Starting Position

1. Place **Jaws 17** of the tool across the middle of the **Seal 102** as shown on Fig. 2

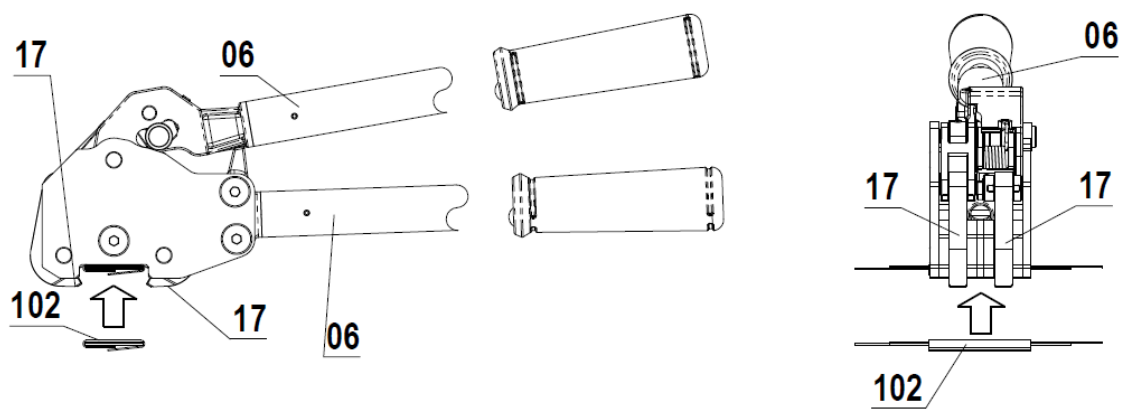

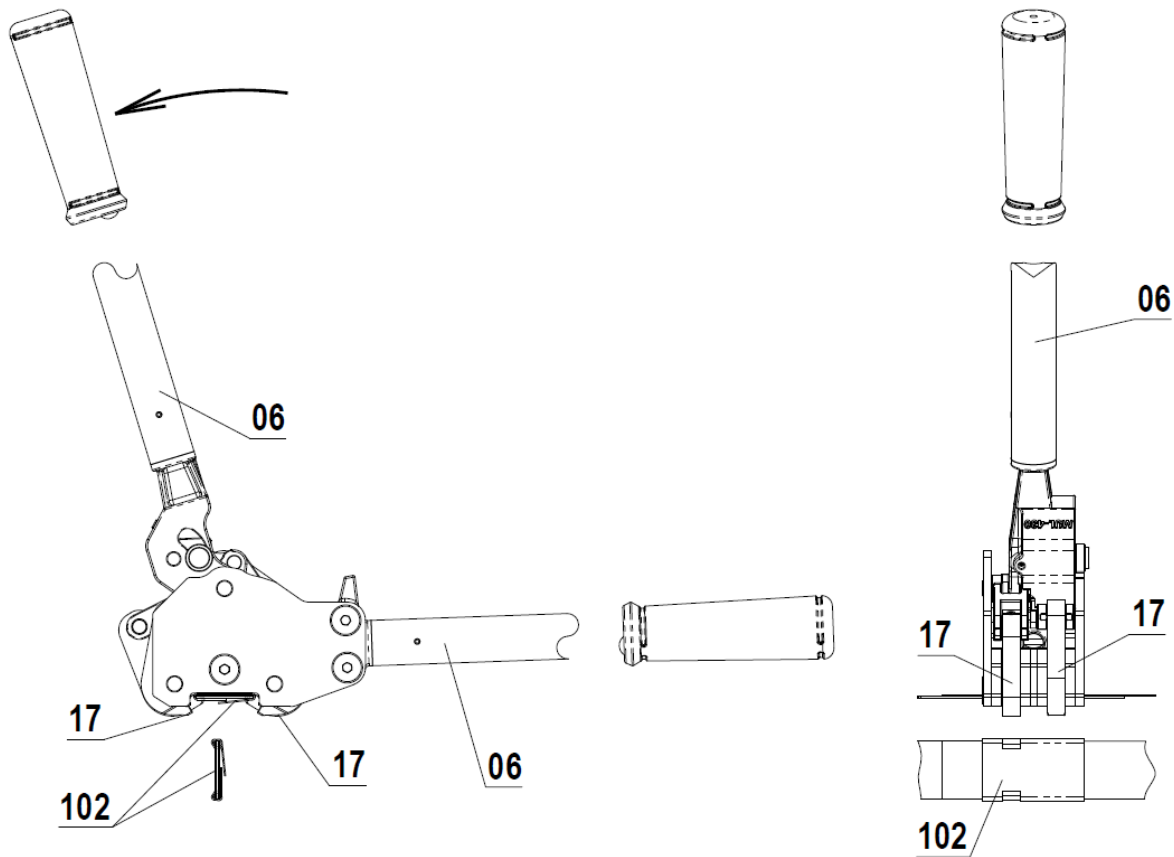

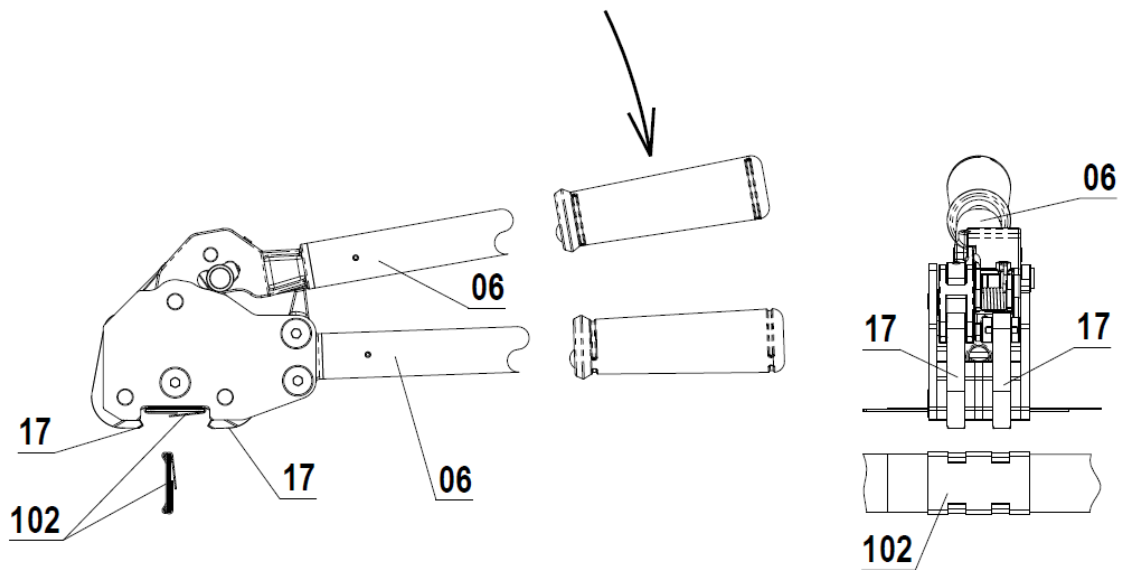

Fig. 2

2. Keeping **Jaws 17** on the middle of the seal move the **Upper Handle Lever 06** until you have a click as shown on Fig. 3. **Lower Handle Lever 06** remains at the same position.

3. Return the **Upper Handle Lever 06** to the starting position as shown on Fig.4

4. Take the sealer off the seal. The operation cycle is now complete.
